Subject: Having an unfair advantage...

Hi Julie,

Do you know that the easiest way to succeed in life of in business is ***with an unfair advantage...***

In the Bug Free Mind Process I go to great lengths to explain that *the only person you are competing with is yourself.*

This is a structured way of thinking that ensures your focus is entirely in the right area... And avoid pain...

However, I did not explain what I'm about to show you today in a way that made it easy to understand what your competitors actually give you...

New Safety Gear for Kids

Why Is Bicycle Safety So Important?

Bike riding is a lot of fun, but accidents happen. The safest way to use your bike is for transportation, not play. Every year, about 300,000 kids go to the emergency department because of bike injuries, and at least 10,000 kids have injuries that require a few days in the hospital. Some of these injuries are so serious that children die, usually from head injuries. **Continue reading…**

"The emails are an important reinforcement of brand. I get calls from people I've never met all the time. They get the newsletter, or a friend of theirs gets the newsletter, and they know I'm the person to call. It really helps establish credibility upfront."
